

PRESS RELEASE

Subject: Unannounced inspections of the Hellenic Competition Commission in the sector of Wholesale and Retail Markets of Telecommunications and Teleconferencing Equipment and Related Equipment, Spare Parts and Software

On the 11th of June 2021, officials of the Hellenic Competition Commission (HCC) carried out consecutive unannounced inspections, acting ex officio, at the premises of undertakings operating in the online wholesale and retail markets of telecommunications and teleconferencing equipment and related equipment, spare parts and software, regarding potential anti-competitive practices in the context of vertical agreements.

The unannounced inspections, which were carried out at the premises of the undertakings in the Prefecture of Attica, were part of the preliminary stage of an extensive investigation into anti-competitive practices, pursuant to the provisions of Greek Competition Law 3959/2011.

The fact that the HCC carries out inspections does not mean that the inspected undertakings have engaged in anti-competitive behaviour, nor does it prejudice the outcome of the investigation itself.

The HCC continues to step in, whenever its involvement is necessary, as the authority responsible for identifying potential violations of the provisions of Articles 1 and 2 of Greek Law 3959/2011 and Articles 101 and 102 TFEU. Facing the potential emergence of distortive phenomena, the HCC, the guardian of the proper functioning of free and competitive markets, takes on the pledge to prioritize, within the remit of its jurisdiction, every relevant case for which it is informed either through a complaint, an application for leniency, or other sources of providing secured digital information (whistleblowing) and it will impose severe administrative sanctions on undertakings which have adopted anti-competitive practices.
